32309 MILTON AVE.

MADISON HEIGHTS, MI 48071

PH: 888-583-5353 FX: 248-588-0051

CUSTOM BBQ BRANDING TOOL HEATING & MAINTENANCE RECOMMENDATIONS

- 1) Prior to heating the branding tool, coat the face with non-stick cooking oil.
- 2) Place the tools' face on your BBQ grill or flat top griddle.
- 3) The branding tools' face should be about 500°F to successfully brand most foods.
- 4) NEVER EXCEED 700°F! Use caution if placing the tool in direct flame. OVERHEATING WILL DAMAGE THE BRANDING TOOL!
- 5) Apply the tool quickly & directly to the food with light pressure.
- 6) Brush the tools' face with your grill brush between brandings.
- 7) Treat this tool with the same care & caution as your cooking surface.
- 8) DO NOT pour water on the tool to cool it. Allow it cool off naturally.

FOR BRANDING FOOD ITEMS ONLY
